

QUESTTECH

Kovar, Invar, Iridium & Platinum-Iridium Parts

Applications

General

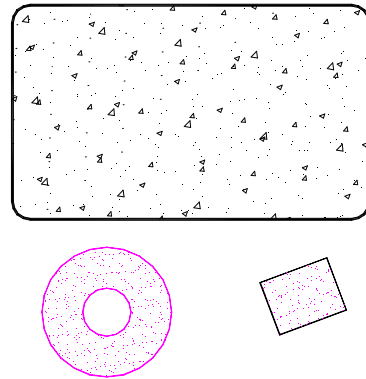

- Any shape required--shape complexity is not a limitation
- No hard tooling or non-recurring engineering charge
- No tooling impact for design changes
- Fast delivery of any custom shape or size
- Economical small lot quantities and volume runs

Types

- Hybrid Microelectronics

Uses

- Hybrid Package Lids
- Microelectronic Base Plates
- Lead Frames
- Die Tabs

Typical Shapes

Design Guidelines

Property	Nominal	Units
Feature Tolerances as cut	+/- 0.002*	Inches
Smallest Feature	0.010	Inches
Maximum Thickness	.025	Inches
Maximum Size	5.0 x 5.0	Inches
Front to Back Taper	10	%
Minimum radius	.002	Inches

* As measured at either Front or Back Side
